Reminder - invitation to presentation of Norwegians Q3 2021 report

Norwegian will release the financial results for the third quarter of 2021 on Thursday 28 October 2021. The report and presentation will be made available at 7:00 AM (CET) at norwegian.com and newsweb.no.

The Company will host a physical presentation at Felix Conference Center, Bryggetorget 3, Aker Brygge, Oslo. The presentation will start at 8.30 AM (CET) and will be held by CEO Geir Karlsen.

Link to a live webcast will be available at

In addition to questions from the audience, we will open up for questions sent to investor.relations@norwegian.com with subject "Question Q3 presentation". It is worth noting that questions from the audience will be prioritized in the event of time constraints.

About Norwegian

The Norwegian group is a leading Nordic aviation company, headquartered at Fornebu outside Oslo, Norway. The company has over 8,200 employees and owns two of the prominent airlines in the Nordics: Norwegian Air Shuttle and Widerøe's Flyveselskap. Widerøe was acquired by Norwegian in 2024, aiming to facilitate seamless air travel across the two airline's networks.

Norwegian Air Shuttle, the largest Norwegian airline with around 4,700 employees, operates an extensive route network connecting Nordic countries to key European destinations. In 2024, Norwegian carried 22,6 million passengers and maintained a fleet of 86 Boeing 737-800 and 737 MAX 8 aircraft.

Widerøe's Flyveselskap, Norway's oldest airline, is Scandinavia's largest regional carrier. The airline has more than 3,500 employees. Mainly operating the short-runway airports in rural Norway, Widerøe operates several state contract routes (PSO routes) in addition to its own commercial network. In 2024, the airline had 3.8 million passengers and a fleet of 49 aircraft, including 46 Bombardier Dash 8's and three Embraer E190-E2's. Widerøe Ground Handling provides ground handling services at 41 Norwegian airports.

The Norwegian group has sustainability as a key priority and has committed to significantly reducing carbon emissions from its operations. Among numerous initiatives, the most noteworthy is the investment in production and use of fossil-free aviation fuel (SAF). Norwegian strives to become the sustainable choice for its passengers, actively contributing to the transformation of the aviation industry.
