Passengers are able to stay connected in the skies with free and premium high-speed Wi-Fi connectivity.

Members of Norwegian’s free-to-join loyalty programme, Norwegian Reward, can earn and spend CashPoints on flight bookings to the airline’s newest long-haul destination. CashPoints are earned on flight bookings and with Reward partners that can be used toward the cost of any Norwegian flight.

Norwegian operates a young and therefore more environmentally friendly aircraft fleet with an average age of just 3.8 years. The International Council on Clean Transportation (ICCT) has voted Norwegian the most fuel-efficient airline on Transatlantic routes for two consecutive years which further demonstrates the airline’s commitment to reducing carbon emissions.

This month Norwegian partnered with climate company CHOOOSE to make it easy for customers to offset their carbon footprint when buying a ticket with the airline and has become the first airline to sign UN climate action initiative.
